Duda circuito

Buenas tardes,
Quería saber si puedo ir a rodar al circuito con mi coche 1:8 off road a vuestro circuito. Me
gustaría hacerme socio.
Un saludo.

Error al ejecutar

The screenshot shows a software interface with a central window titled "Gmail" and a red header bar. The main content area displays an "Initialization" step with a red warning icon and the title "Initialization". Below it is an "AccountValidationException" message: "Failed to verify connection 'Make Gmail'. Invalid refresh token. Please reauthorize the connection." A nested message follows: "Failed to verify connection 'Make Gmail'. Invalid refresh token. Please reauthorize the connection." To the left of the main window, there's a circular icon with a red "M" and a magnifying glass over it, labeled "Gmail [1] Watch Emails". To the right, there are several icons: a purple wrench and gear labeled "Tools [4] Sleep", a green "L-E" icon with a value of "3", and another "Gmail [E] Send an Email" icon. At the bottom, a log window shows the following entries:

```
17:15 - The scenario was initialized.  
17:15 Preparing scenario for running.  
17:15 Requesting execution.  
17:15 The request was accepted. Waiting for the server.  
17:15 Cannot initialize the scenario because of the reason 'Failed to verify connection 'Make Gmail'. Invalid refresh token. Please reauthorize the connection.'  
17:15 - Failed to verify connection 'Make Gmail'. Invalid refresh token. Please reauthorize the connection.  
17:15 Scenario initialization failed with an error.  
17:15 The scenario was finalized.
```
